

~~SECRET~~*Office Memorandum* • UNITED STATES GOVERNMENT

TO :

DATE: 5 February 1959

25X1A

FROM :

SUBJECT: Use of CHALICE Photography for Geodetic Control Purposes

1. In reviewing Mr. Bissell's memorandum of 30 January 1959, I gather that some misunderstanding exists regarding Mr. Lundahl's reasons for re-referring this matter to Mr. Bissell. In his memorandum dated 15 December 1958 (TCS 4165--58) Mr. Bissell posed several questions pertaining to the Aeronautical Chart and Information Center's letter of 18 April (TCS 4118-58) and CIA/PIC's proposals. In retrospect, Mr. Lundahl's purpose in returning this file to Mr. Bissell was (1) to clarify these points and questions, and (2) to advise Mr. Bissell of progress that has been made on this matter since receipt of the initial request.
2. To eliminate the possibility of this file being returned to Mr. Bissell, I have requested CIA/PIC (thru Mr. [REDACTED]-PIC's action officer on this matter) to refer any further questions involving policy on the ACIC problem direct to you and any items concerning technical aspects to either myself or [REDACTED]
3. I have attached a draft of a proposed reply to Mr. Lundahl's memorandum. The contents of this draft were discussed with Messrs. [REDACTED] (CIA/PIC representatives) and has been coordinated with R & D, Contracts, and Security.
4. Recommend attached draft be finalized for your signature and forwarded with attached "voluminous file" to PIC.
